FOR IMMEDIATE RELEASE

Geometric releases version 2.1 of GeomCaliper for CATIA V5

Includes enhanced usability, improved performance and support for CATIA V5 R18

Mumbai, India, December 4, 2007 – Geometric Ltd., a leader in Product Lifecycle Management (PLM) services and technologies, today announced the release of version 2.1 of GeomCaliper® for CATIA® V5, focusing on usability and performance enhancement related features along with support for CATIA V5 R18.

GeomCaliper is an innovative tool that facilitates measurement and checking of wall thickness of 3D CAD models. GeomCaliper enables acceleration of the design review process for manufacturability. Unlike traditional measurement tools, GeomCaliper is fast and easy to use. GeomCaliper provides savings in downstream costs by improved part quality, starting at the design stage.

Version 2.1 is packed with powerful new features and functionalities. The major enhancements in this release include detailed reporting, customization of color band as per user needs, improved accuracy in thickness computation, and enhanced visualization techniques to view critical thickness areas hidden deep inside complex models. It provides significant improvements both in computation time and frame rate speed (FPS) for visualization of large models.

Version 2.1 of GeomCaliper for CATIA V5 supports 32 bit as well as 64 bit Windows XP. It supports R18 along with R14, R15, R16 and R17.

For more information on GeomCaliper and for a 15 day free evaluation of the new release, visit: <http://geomcaliper.geometricglobal.com>. For pricing details and purchase options, contact: GC.Sales@geometricglobal.com.

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM), enable companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Geometric was incorporated in 1994 and is headquartered in Mumbai, India. It is listed on the Bombay Stock Exchange (BSE: 532312) and the National Stock Exchange (NSE: GEOMETRIC) in India. For its consolidated operations for the year ending March 2007, the company recorded revenues of 3.95 Billion Rupees (85 Million US Dollars), with market capitalization of 6.2 Billion Rupees (142 Million US Dollars) as on 31st March 2007.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge

solutions that enhance design and improve manufacturing operations. The unit includes Phoenix AZ-based business subsidiary, Geometric Technologies, Inc., formerly TekSoft, Inc., which has over twenty five years in progressive product innovation. It develops and markets CAMWorks®, a SolidWorks® certified Gold CAM product, besides marketing and distributing Geometric's products and technologies.

The end-user products from Geometric include CAMWorks, eDrawings Publisher, DFM Pro and GeomCaliper®. eDrawings Publisher is a lightweight intuitive collaboration tool for 3D models that enables publishing of 3D model from all major CAD systems. DFM Pro is an automated intuitive tool for designers to accurately predict the manufacturability of models. GeomCaliper is an integrated, automated and easy to use thickness checker for 3D CAD models.

The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
